

# 2901

hand-drawn

for sheers, light and medium-weight curtains

**One rail, many possibilities**

# 2901

## hand-drawn

for sheers, light and medium-weight curtains

## versatile & discreet

The Qurails 2901 rail you can create a perfect overlap, because of the low profile height of 8 mm, the track is barely visible. In addition, it is easy to install and is often used as a return for wider profiles of the 2900 series. The rail has two parallel running rail channels, for a sleek look. The rail can be used in private homes or in projects.

- The ideal track for combining sheers and lightweight or medium-weight curtains.
- Easy to bend and exceptional quality.
- Suited for ceiling or wall mounting
- Silent and smooth running.

### Standard colours

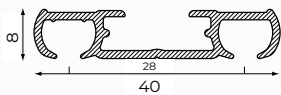

High quality, wear-resistant coating, highly colourfast, UV-resistant.  
Other RAL colours & special coatings on request.

### Features

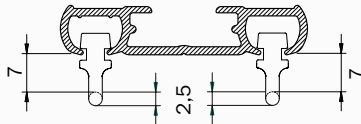

Material:	aluminium

## Specification guide

### Material

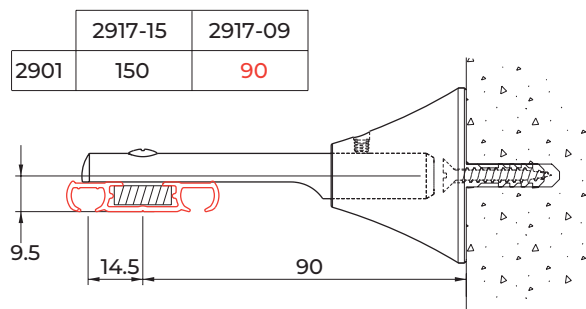

- Aluminium EN AW-6060-T66.
- Powder coated in accordance with the Qualicoat standard.

## Mounting

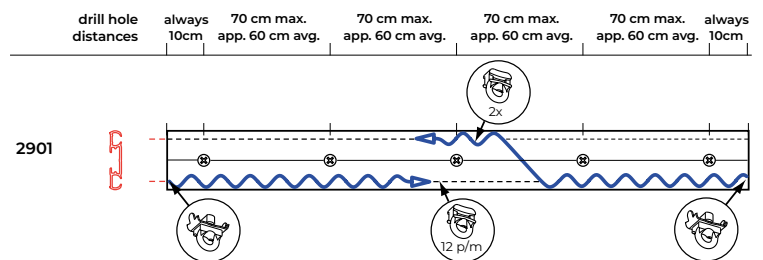

Ceiling mounting of a pre-punched 2901 by Qurails with 2914-WD screws with white caps.

Wall fixing 2901 with extension bracket 2917-09

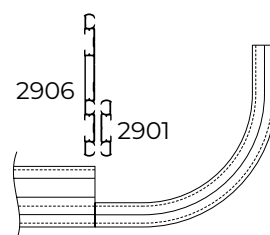

### Mounting guideline

The distance between the brackets can vary depending on the following factors: the mounting surface (wood, concrete or plaster), the weight of the curtains and the curtain fabric production method, the specific application and the system usage intensity. General advice: with the curtains open, place additional brackets where the pleats bunch together. Also place additional brackets before and after bends.

Advice mounting clip: max. every 30 cm.

Kombination aus den breiten Profilen 2905 und 2906 mit 90-Grad-Retoure 2901-R-W und 2 Kanälen mittels Schienenverbinder 2952
