

2905

hand-drawn

for light and medium-weight curtains

One rail, many possibilities

2905

hand-drawn

for light and medium-weight curtains

versatile & discreet

The Qurails 2905 multichannel profile is the ideal track for combining sheers and main drapes. Mount just one track to have two rail channels. Because of the low profile height of 8 mm, the track is barely visible. The track can be quickly and easily mounted on a ceiling or in a window opening.

- The ideal track for combining sheers and lightweight or medium-heavy curtains.
- Concealed ceiling mounting.
- Silent and smooth running.
- Often used in hotels

Standard colours

High quality, wear-resistant coating, highly colourfast, UV-resistant.
Other RAL colours & special coatings on request.

Features

Material:	aluminium
Colour:	white
Dimensions:	8 x 100 mm
Weight profile:	732 gr/m
Mounting:	ceiling

Profile/ gliders specifications

other lengths on request

Mounting surface:

- wood
- masonry/concrete

Bracket type:

- screw mounting

Bending:

The 2905 cannot be bent; a separate return bend can, however, be mounted on the front channel of the 2900. The minimum bending radius of the 2900 is R20.

combining wide profile 2905 with 90 degree return 2900-R-W, connected via rail connector 2952.

Mounting

Ceiling mounting of a pre-punched 2905 with 2914-WD screws with white caps.

Mounting guideline

The distance between the brackets can vary depending on the following factors: the mounting surface (wood, concrete or plaster), the weight of the curtains and the curtain fabric production method, the specific application and the system usage intensity. **General advice:** with the curtains open, place additional brackets where the pleats bunch together. Also place additional brackets before and after bends.

drill hole distances:	always 10cm	90cm max. ca. 80cm avg.	90cm max. ca. 80cm avg.	90cm max. ca. 80cm avg.	90cm max. ca. 80cm avg.	always 10cm

Flow

The Qurails Flow System keeps pleats in curtains consistent. It can be used with small and wide channel tracks and, because of the broad assortment of components, it can be integrated in hand-drawn, cord-pulled and electrically operated systems.

The Flow System can also be used with curved curtain tracks. For further information, [see the Flow product data sheet](#).

Specification guide

Material

- Aluminium EN AW-6060-T66.
- Anodised in accordance with the Qualanod standard.
- Powder coated in accordance with the Qualicoat standard.
