

4600

hand-drawn

for light and medium-weight curtains

Elegant, discrete track

4600

hand-drawn

for light and medium-weight curtains

elegant & discrete

The Qurails 4600 track is an attractive curved profile that can be mounted invisibly. The track flange is slightly longer on the visible side to conceal the fixing clamp. This minimises the unavoidable gap between the track and the ceiling. Simple ceiling mounting using a fixing clamp; no brackets are visible. A beautifully finished track that can be used in your home.

- The ideal track for sheers and lightweight or medium-heavy curtains.
- Easy to bend and exceptional quality.
- Can be forward or reverse bent in different radii.
- Concealed ceiling mounting.
- Compatible with the Qurails Flow System for regularly pleated curtains.
- Silent and smooth running, also round bends.

Standard colours

High quality, wear-resistant coating, highly colourfast, UV-resistant.
Other RAL colours & special coatings on request.

Flow

The Qurails Flow System keeps pleats in curtains consistent. It can be used with small and wide channel tracks and, because of the broad assortment of components, it can be integrated in hand-drawn, cord-pulled and electrically operated systems.

The Flow System can also be used with curved curtain tracks. For further information, [see the Flow product data sheet](#).

Specification guide

Material

- Aluminium EN AW-6060-T66.
- Anodised in accordance with the Qualanod standard.
- Powder coated in accordance with the Qualicoat standard.

Mounting

Ceiling mounting with fixing clamp 2650 (including washer) with wood screws 2614.

Ceiling mounting with fixing clamp 2650 (including washer), before (a) and after tightening the clamp (b).

4600 without heading with glider 4010

Mounting guideline

The distance between the brackets can vary depending on the following factors: the mounting surface (wood, concrete or plaster), the weight of the curtains and the curtain fabric production method, the specific application and the system usage intensity. General advice: with the curtains open, place additional brackets where the pleats bunch together. Also place additional brackets before and after bends.
