# 4701

## hand-drawn

for light and medium-weight curtains

### Compact and sleek

The Qurails 4701 track is a pretty rectangular profile. This curtain track is usually recessed into a wooden surface. An attractive, sleek track that can be used in your home or office building.

- The ideal track for sheers and lightweight or medium-heavy curtains.
- Easy to bend and exceptional quality.
- Can be forward or reverse bent in different radii.
- Concealed mounting on wood by screw or on concrete by ceiling bracket
- Compatible with the Qurails Flow System for regularly pleated curtains.
- Silent and smooth running, also round bends.

### Standard colours

High quality, wear-resistant coating, highly colourfast, UV-resistant.  
Other RAL colours & special coatings on request.

### Features

Material:	aluminium
Colour:	white, natural anodised
Afmetingen:	10 x 15 mm
Weight profile:	137 gr/m <sup>1</sup>
Mounting:	ceiling

bending radius	bending tool
R 10 cm	1012
R 10 cm	1015
R > 80 cm	1018

R 10 cm

R > 80 cm

## Flow

The Qurails Flow System keeps pleats in curtains consistent. It can be used with small and wide channel tracks and, because of the broad assortment of components, it can be integrated in hand-drawn, cord-pulled and electrically operated systems.

The Flow System can also be used with curved curtain tracks. For further information, [see the Flow product data sheet](#).

## Specification guide

### Material

- Aluminium EN AW-6060-T66.
- Anodised in accordance with the Qualanod standard.
- Powder coated in accordance with the Qualicoat standard.

## Mounting

Pre-punched track from the 4700 series mounted using cross-head screws 2314

Mounting 4701 with metal ceiling bracket 4750

Mounting milled rail

## Punch types

### Additional mounting options

Standard punched hole type B. (Ø2.5 + 3 x 10 mm slot, every 15 cm)  
Other punch types are available on request.

## Application example

4701 with end cap 4753-12

Application of the 4753-12, a product with two functions: only as end cap or as end cap and end stop.

### Mounting guideline (based on ceiling bracket)

The distance between the brackets can vary depending on the following factors: the mounting surface (wood, concrete or plaster), the weight of the curtains and the curtain fabric production method, the specific application and the system usage intensity. General advice: with the curtains open, place additional brackets where the pleats bunch together. Also place additional brackets before and after bends.

## Standard parts
